

Date: Monday March 8, 2004
Time: 11:30am to 1:00pm
Location: Remedy Staff,
101 Enterprise, Aliso
Topic: Communications Competency

This month we will have a special presenter...John Secor, CFM AIA will be discussing the **Communications Competency**. John was scheduled to meet with us last month, but had to postpone it until March. This section of CFM Study deals with floorplans & drawings and John has agreed to bring some examples and discuss them with us.

Because we do have a guest speaker who will be bringing handouts, it would be great if we had a good showing for this meeting. We especially need to know who will be attending.

Please RSVP to **bill@cfm2.net** or **anita@cfm2.net** if you plan to attend.

As a reminder, John will also be facilitating our Education event this Friday March 5, which deals more formally with this subject. It might be a good idea to think about attending this session as well as our study group on Monday.
