Facilitators: Bill Conley bill@cfm2.net

Anita Ciminesi anita@cfm2.net

Contact Bill or Anita for additional information and times

In order to assist those Facility Professionals to prepare for the CFM exam, the CFM Development Committee has created an on-line tutorial based on our monthly meetings. The committee has decided to open up the tutorial for ten members of the Orange County Chapter.

The web site of this learning tool is www.cfmstudy.net. Please take a look at the site. It has a lot of pertinent information relating to the CFM designation, as well as links to other appropriate sites. If you are interested in signing up as a student for the sessions, please follow the registration instructions. Remember, too, that we must limit registration for the interactive tutorial to ten (10) members. We will create a waiting list if we receive too many requests.
