

The IFMA Foundation

The IFMA Foundation is a non-profit organization that is committed to expanding knowledge of the built environment in a changing world through scholarships, education and research. Given our vision we are determined to provide greater resources and educational opportunities to facility management professionals and those that support the FM industry.

Established in 1990 as a non-profit, 501(c)(3) corporation, the IFMA Foundation is supported by the generosity of a community of individuals—IFMA Members, chapters, councils, corporate sponsors and private contributors—and is proud to be an instrument of information and opportunities for the profession and its representatives.

A separate entity from **IFMA**, the IFMA Foundation receives no funding from annual membership dues to carry out its mission. Supported by the generosity of the FM community, the IFMA Foundation provides education, research and scholarships for the benefit of FM professionals and students. Foundation contributors share the belief that education and research improve the FM profession.

The Facility Management programs at UCI concur with our mission to provide further educational opportunities to those in the built environment and to provide scholarships and grants to those that participate in this program. Please refer to www.ifmafoundation.org to learn more about the grants and scholarship that may be available to you.
