

April 2003

"Facility Management - It Ain't What it Use to Be"

Join us on April 24 at 5:30 p.m. to learn of the successes, trials, tribulations and journeys of Facility Managers careers these past few years. Facility Management - It Ain't What it Use to

Be" will feature a panel comprised of facility professionals, and transitioning and past facility professionals relating their own personal stories and experiences. The program will be facilitated by **Kathy Reid** an FM Consultant and Past President of the Orange County Chapter.

Panelists will discuss not only their personal stories, but will share their advice to those seeking a career in FM; their own career path transitions; learned survival skills; experiences with mentors; the impact of technology, the economy and regulatory issues on their careers; and ways they have actually worked themselves out of a job. Our panelists have been extremely ingenious in creating new positions at the same company, out-sourced themselves, left FM all together, and networked in ways one can only imagine.

Come share your personal "war stories" at our open discussion following the panel presentation.
