

Take In A Meeting

After attending a walking tour of the Honda Center in Anaheim as part of the IFMA OC monthly general meeting in February '07, we enjoyed dinner across the street at JT Schmids. I was seated with Bill Leas, Scantron Facilities Manager, whom I had met on a few occasions at IFMA OC functions. Seated with Bill was Herb Chatterton, Masimo Facilities Manager, and they shared stories of their companies being located adjacent to each other and the day-to-day situations that each faces as a part of their jobs. As Vice-President of Torrez Trucking Office Relocations, I am familiar with the many responsibilities a facilities manager can deal with and always find the solutions quite interesting.

Bill offered some kind words in regards to Torrez Trucking's services. Herb Chatterton and I exchanged cards and went on our way. Two months later I received a call from Herb to provide an estimate on moving lab tables and equipment at Masimo. Subsequently, we were able to provide our services and a successful business relationship was forged. IFMA OC functions do work; great contacts and friendships can be made.

Terri Geml
Vice-President
Torrez Trucking, Inc.
