

UC Irvine Extension's Facilities Management Certificate program is an IFMA Recognized Program. Participants will acquire a body of knowledge consistent with IFMA's underlying principles on facility management. **IFMA members receive a 10% discount on the certificate courses (discount code IFMA10).**

Prepare yourself for one of the following IFMA designations:

- The **Facility Management Professional (FMP) designation** is an *entry-level, knowledge-based credential* geared towards FM's with less than five years experience.

The successful completion of the following UC Irvine Extension courses satisfies the educational component of the FMP designation: *Fundamentals of Facilities Management, Facilities Design and Space Planning, Supervision for Facilities Professionals, and Interpreting and Analyzing Blueprints.*

- The **Certified Facility Manager (CFM) designation** is a *competency-based certification* recognizing proficiency in all areas of FM.
